LIFE - IP CYZERO WASTE

- ✦ Provides an umbrella of solutions and strategies for reaching waste targets within 8 years of its implementation
- ✦ Diverse funding Programmes for multiplication of project results in the whole country
- ✦ Fundamental tool to overcoming existing obstacles
- ✦ National Alignment: realization of National Waste Prevention Programme 2022-2028 & National Waste Management Plan 2022-2028 goals through source separation of municipal waste, waste reduction, and the provision of economic tools and incentives
- ✦ Duration: 01/10/2021 - 30/09/2029
- ✦ Funding: €14,785,848 (EU funding: 60% - €8,871,508)

BENEFICIARIES

- Department of Environment (Coordinator)
- National Technical University of Athens
- Nicosia Municipality
- Limassol Municipality
- Larnaca Municipality
- Paphos Municipality
- Paralimni Municipality
- Ayia Napa Municipality
- Aradippou Municipality
- Polis Chrysochous Municipality
- Aglantzia Municipality
- Geroskipou Municipality
- Nicosia Development Agency
- Limassol Development Agency
- Larnaca & Famagusta District Development Agency
- Paphos Aphrodite Development Agency
- Troodos Development Agency
- Company Institute of Agricultural Research Cyprus
- Chamber of Commerce and Industry

ACTIONS

3 Preparatory Actions

10 Concrete Actions

4 Actions for Monitoring the Impact
of the Project

3 Actions for Public Awareness
& Dissemination of Results

2 Actions for Project Management
and Monitoring of Project Progress

PREPARATORY ACTIONS

ACTION A1

Assessment of the current situation, updated studies at the national level, and mapping of stakeholders

ACTION A2

Preparatory technical and economic studies for demonstration projects

ACTION A3

Study for the establishment of the Coordinating Body between the Central and Local Government

CONCRETE ACTIONS

ACTION C1

Separate collection of biowaste at the source

ACTION C2

Installation and operation of Green kiosks for dry recyclables

ACTION C3

Implementation of Household Hazardous Waste (HHW) collection and management

ACTION C4

Foodwaste and agrowaste prevention

CONCRETE ACTIONS

ACTION C5

Construction and operation of Reuse/Repair Centers and networks

ACTION C6

Pay As You Throw Schemes

ACTION C7

Marine debris collection and management system

ACTION C8

Application of economic instruments in support of Circular Economy and Bioeconomy

CONCRETE ACTIONS

ACTION C9

Capacity Building
Actions

ACTION C10

Establishment of
the Waste
Management
Coordinating Body

MONITORING ACTIONS

ACTION D1

Key Performance indicators

ACTION D2

Monitoring of Circular Economy Indicators on a national scale for key economic sectors and value chains

ACTION D3

Monitoring the project environmental impact

ACTION D4

Monitoring the project socio-economic impact

PUBLIC AWARENESS AND RESULTS DISSEMINATION

ACTION E1

Public awareness, involvement and dissemination

ACTION E2

EU-level and international dissemination and networking

ACTION E3

Project replication and transfer strategy and implementation

PROJECT MANAGEMENT AND MONITORING OF PROJECT PROGRESS

ACTION F1

Overall project management, monitoring and reporting to the European Commission

ACTION F2

Complementary Funding Monitoring and Mobilisation

EXPECTED RESULTS

- Separate collection of biowaste at the source with the development of decentralised or centralised units, aerobic and anaerobic processing
- Separate collection of recyclable materials with the development of green kiosks
- Development and operation of 2 centers and 4 mobile units for the collection and management of hazardous household waste
- Development and operation of 2 reuse/repair centers
- Promotion of food waste and agricultural waste prevention

EXPECTED RESULTS

- Implementation and evaluation of the "Pay as You Throw" system
- Implementation of a system for collecting marine debris and discarded fishing gear, including mooring ropes, in 2 to 3 fishing shelters
- Capacity building for stakeholders
- Increase of public awareness and information dissemination for the general public and stakeholders
- Establishment and operation of a Coordinating Body for waste management
